BACKGROUND

Under the umbrella of EuroNanoMed II (ERA-NET for research programmes on Nanomedicine), 14 funding organisations have agreed to launch the 5th Joint Transnational Call (JTC) for collaborative research projects in Nanomedicine. The EuroNanoMed II funding organisations particularly wish to promote innovative interdisciplinary collaboration and to encourage translational research proposals.

REGISTRATION

Research project consortia who intend to submit a transnational proposal should register at <https://www.pt-it.de/ptoutline/application/euronanomed2014>, clicking the “to register” button and following the directions. The system will be opened by January 14, 2014. To register, please complete the different sections as soon as possible.

PROPOSAL SUBMISSION

Please read carefully the Call Text and the relevant central and national/regional eligibility and budgetary criteria (see Annexes) before starting your proposal in order to check if you fulfil the call's formal requirements.

Electronic proposal submission is mandatory. Please use the proposal template provided on the EuroNanoMed II website (www.euronanomed.net). Please complete all fields and respect the format of each section. The proposal should be uploaded to the online submission website in a digitally signed PDF-Format file (**a scanned version of the original signature page**) **before March 04, 2014 at 17:00 (CET Brussels local time)**. After this time, the server will not accept proposals. Please take into account that the online data entry may be overloaded by the day of the deadline. It is therefore recommended to complete the registration and upload the proposal in proper time.

In case of inconsistencies between the information registered in the submission tool and the information included in the PDF of this application form, the information registered in the submission tool shall prevail.

For applicants from some countries/regions it might be also necessary to submit the proposal and/or other information directly to the relevant national/regional funding organizations. Therefore, **applicants are strongly advised to check their respective country/region funding organization eligibility and other specific information (see tables below)**. For more details, applicants may also get in touch with the respective funding organizations Contact Persons (see below). For central and additional information you can contact EuroNanoMed II Joint Call Secretariat (JCS):

Tel. +39 049 7705520

Fax. +39 049 772033

Monday to Thursday 9.30-13.00 and 14.30-17.30

Friday 9.30-13.00 and 14.30-16.30 (Brussels local time)

Email: calloffice@euronanomed.net

PROPOSAL STRUCTURE

One joint proposal document (in English) shall be prepared by the partners of a joint transnational proposal, which must be uploaded to the online submission website (<https://www.pt-it.de/ptoutline/application/euronanomed2014>) by the transnational project coordinator. The system will be opened by January 14, 2014.

Only the proposal template provided on the EuroNanoMed II website (www.euronanomed.net) will be accepted. Please keep in mind that the template has a fixed maximum size. Thus, the proposal document cannot be longer than the number of pages indicated below (DIN-A4, Calibri 11, single-spaced). **Proposals exceeding these limitations will be rejected.**

Proposals must include the following information:

- **Project title**
- **Acronym (maximum 15 characters)**
- **Duration of project (months)**
- **Total project cost and budget to be publically funded by the EuroNanoMed II funding organizations**
- **Clinical/public health application (yes or no)**
- **Industrial/SME application (yes or no)**
- **Diagnostics (yes or no)**
- **Targeted drug delivery (yes or no)**
- **Regenerative medicine (yes or no)**
- **Keywords (5 to 7)**
- **Scientific abstract (max. ½ page)**
- **Family names, first names and full affiliations (by this order) of the project coordinator**
- **Family names, first names and full affiliations (by this order) of each partner principal investigators (one per project partner) and other team members participating in the project**
- **Background and present state of the art in the research field and preliminary results (max. 2 pages)**
- **Previously EuroNanoMed I funding (yes or no)**
- **work plan including references (aims, methodology, involvement of participants, time plan, work packages, project coordination and management, innovation, added value of the proposed solutions compared to the existing ones; max. 8 pages)**
- **Financial summary for each project consortium partner provided on the respective table available within the electronic application data sheet**
- **Justifications of requested and total project cost (e.g. own contribution + other sources + requested). When applicable specifying co-funding from other sources necessary for the project (max. 1 page)**
- **Added value of the proposed international collaboration (Please explain the European dimension of the research and the proposed solutions, the necessity for a transnational approach; max. 1 page)**
- **Potential impact and exploitation of expected project results (max. 1 page)**
- **Handling of intellectual property rights (e.g. any barriers to sharing materials or results), both within and outside the research consortium (max. ½ page)**

- Description of on-going projects, pending patents and patents when applicable of each participating project partner related to the present topic indicating funding sources and possible overlaps with proposal (max. 1 page per group)
- Ethical issues of the project proposal. When applicable, ethical and legal issues (e.g. informed consent, ethical permits, data protection, use of animals) according to national regulations (max. ½ page)
- Brief CVs for each participating project partner Principal Investigator with a list of up to five relevant publications within the last five years demonstrating the competence to carry out the project (max. 1 page each)
- When requested by national/regional EuroNanoMed II funding bodies, additional information must be provided
- Research groups not eligible to be funded (e.g. from non-funding countries or not fundable according to national/regional regulations of the participating funding countries) may participate in transnational projects if they are able to secure their own funding. Such partners should state in advance the source of funding for their part in the project and a signed statement has to be enclosed to the project declaring in advance they will run the project with their own resources
- Signature of project consortium coordinator (signed PDF) on behalf of the project partners

Please note that after submission of the proposal once the joint transnational call has been closed it is not possible to amend the proposal or to add further documents.

PLEASE NOTE

It is mandatory to meet the deadline and observe the format of the proposal structure.

The Joint Call Secretariat will check the proposals submitted to ensure that they meet the call's formal criteria (e.g. date of submission; number of participating member states, category of project partners (academic, clinical/public health and industrial/SMEs), inclusion of all necessary information in English and appropriate limits on length). In parallel, the Joint Call Secretariat will forward the proposals to the relevant EuroNanoMed II national/regional funding organisations that will perform a formal check of compliance with their respective eligibility criteria. **Proposals not meeting the formal central and /or national/regional eligibility criteria will be rejected.** Proposals passing both checks will be forwarded to independent international scientific experts for evaluation.

Potential project consortium coordinators are recommended to read the EuroNanoMed II funding organizations' eligibility criteria when they are looking for potential project consortium partners.

Project partners are strongly advised to read the specific eligibility criteria of the relevant EuroNanoMed II funding organizations and other requirements and to contact their respective Contact Persons prior to submitting the application (see "Contact Point List" and "**Information for Applicants**" below or visit www.euronanomed.net).

Eligible institutions	See under 'Additional eligibility criteria'.
Additional eligibility criteria	<p>Art. 9 of the FWO-regulation on the regular research projects is applicable. In this article is stated who can apply as a (co-)promoter for a research project</p> <p>Promoter:</p> <ul style="list-style-type: none"> – a professor with an appointment of more than 10% at a Flemish university; – a professor with an appointment of 10% at a Flemish university and a main task as researcher; – a professor with an appointment of 5% at a Flemish university and with an appointment as (assistant) clinical head or an equal function in a university hospital; – a research director of FWO; – a Flemish beneficiary of an ERC Starting Grant, an ERC Advanced Grant or an allowance in the FWO-funding programme Odysseus II. <p>Co-promoter:</p> <p>All co-promoters have to be researchers at least postdoctoral level in at least one of the following types of</p>

organisations:

- a Flemish university;
- a Flemish research institution;
- a Flemish university hospital;
- the Transnational university Limburg;
- a federal scientific institution, if the co-promoter belongs to the Dutch language register.

Researchers from outside Flanders can be involved as co-promoter without being entitled to receive funding from the FWO and insofar this cooperation is relevant for the project.

If more than one universities are involved in the project, at least one promoter or co-promoter of each university has to fulfill the above mentioned eligibility criteria as well as to occupy a position covering entirely the period of the project that is applied for.

The criteria have to be met with at the start of the project at the latest, which has to be proven at the date of the submission.

Eligible costs

Funding money can be used for staff, consumables and infrastructure. The minimal and maximal amounts of money allowed per cost category, as applicable for the regular FWO-projects, are not applicable for the projects funded by FWO in ERA-NET. However, for staff costs the same lump sums are applicable as in the regular projects, i.e.: 60.000 € for a scientific staff member and 50.000 € for a technical staff member.

Overhead is not an eligible cost. FWO pays the host institutions of a project 6% overhead on top of the funding amount.
